Design Tip: Wall Panelling

Before you even choose your paint colour, consider adding significant personality to any room with Wall Panelling.

By using a small decorative trim moulding you can add dimension and value to plain walls, mud rooms and entries.

INTRODUCING OUR POLYURETHANE PRODUCTS

Since 1990 we have continued to provide products that reflect market trends that also meet the demands of Homeowners, Builders, Contractors, and Design Professionals. We are confident that our collection of Polyurethane Products featured in this catalogue (most of which are in stock) will add beauty and character to any project large or small.

If you can't find what you're looking for:

CONTACT US at 604-513-1138 or info@WestcoastMoulding.com

Here are the websites for our trusted Vendors specializing in Polyurethane Products:

Design Tip: How to Select the Right Ceiling Medallion

Did you know there's even a mathematical formula:

1. Measure (by the foot) the width and the length of the room.
2. Multiply the numbers to calculate the square footage of the room.
3. Divide that number by 7 (the number you end up with is the diameter in inches of your ceiling medallion for a 9 Ft. ceiling).

Remember to use this as a guide only because it all comes down to the overall design and size of the room along with the diameter of the light fixture and the ceiling height.

WHAT YOU NEED TO KNOW ABOUT POLYURETHANE PRODUCTS

PERFORMANCE - Polyurethane is a high-density composite material providing superior performance in place of many other types of materials because of its ability to resist rotting, warping, cracking, peeling, as well as deterioration. This makes it the perfect solution for all types of climates.

BENEFITS - Light weight, easy to handle and perfect for Interior and Exterior applications. Polyurethane typically has the look of traditional intricate hand-carved wood millwork, which means substantial cost savings on material and labour.

INSTALLATION - Polyurethane products are handled in the same manner as wood millwork. Adhesive (any good quality acrylic latex adhesive such as Lepage PL Premium™) and mechanical fasteners (nails, screws, bolts, etc.) must be used for installation on concrete, metal, vinyl or wood. Adhesive must be used on all bedding/butt joints as well.

FINISHING - Our Polyurethane products already have a white primer coat and so do not require additional priming. They are ready to be painted with a good quality latex paint. Surface must be clean, dry and free from any grease or film. Since these products can be used for Interior or Exterior applications, ensure you are using the appropriate paint. For best results, please consult your local paint supplier.

All dimensions listed are a close representation of the product shown. Please check actual size and availability before ordering.

ARCHITECTURAL DECORATIVE ELEMENTS

INSPIRATION - Drop into our spacious showroom or visit our website and be inspired by a myriad of design options for finishing a new home or renovation.

SELECTION - Along with these Architectural detailed products we have hundreds of in-stock Moulding profiles in other wood materials. Choose from more Moulding combinations than you ever thought possible. But we are much more than Moulding – see us for Doors, Custom Millwork, Stair Components, Custom-Built Wood Staircases, and more. All in one location!

SOLUTIONS - Look to us for answers to How Do I Choose? Where do I possibly get that? or How soon can I get it? and still complete your project on time and on budget.
