DURABOARD® SED

WATER-RESISTANT LUMBER ALTERNATIVE, DURABOARD® SED PVC SQUARE EDGE S4S

Sealed Edge Duraboard® or SED strips* is an extruded cellular PVC material factory-sealed with a smooth finish on all four edges, designed to be an excellent ext. construction material. It looks, feels, and works like wood but lasts much longer. A far more economical and superior alternative to traditional building products and wood—perfect for interior applications too, where moisture is an issue, bathrooms, laundry rooms, mudrooms, and basements.

*Also available in unsealed sheets.
